R&D/Rapid Prototype Engineering

High Quality Quick Turnaround Prototyping Capability

NDTI enables the warfighter to meet dynamic requirements, enhance readiness, and continuously improve performance in 21st century combat arenas where critical challenges regularly evolve. NDTI works with several DoD and commercial vendors to procure products for our customers.

We focus on efficiency and effectiveness of processes, communication, collaboration, and information management, providing a matrix management solution that balances system constraints, interfaces, cost, and schedule. Our services are project driven, which permits us to fully capitalize and streamline prototype design, development, testing, and production tactics and strategies. NDTI professionals employ an agile teaming approach based on project specific production requirements designed to meet the warfighter's mission urgent need within resource constraint.

What We Offer	How We Do It	Clients
<ul style="list-style-type: none"> • Function Requirement Allocation • Capability and Constraint Tradeoff Analysis • Mock Ups to Verify Form, Fit, and Function • Develop Interface Control Documents (ICD) • Build to Specification – Test to Performance 	<ul style="list-style-type: none"> • Cost Effective, Value Added Project Focus • Resident Subject Matter Experts • Extensive Reach-Back Specialist Depth • Unrivalled Customer Reputation • Commitment to Excellence • Nationwide Presence • Best Practices Approach 	<ul style="list-style-type: none"> • Department of the Navy <ul style="list-style-type: none"> ○ NAWC
